

# HAVENS FOR HEALING

Filomena & Nadine in the new living room

The Canadian ReDesigners Association (CRDA) has partnered with the Ovarian Cancer Canada (OCC) to ensure that women currently in treatment for ovarian cancer have a comfortable and harmonious room in their home in which to focus on recovery. Nadine Matejuk of Enhance It Interiors, a local ReDesigner in Maple, was pleased to help create a "haven" to Filomena Neves, an ovarian cancer survivor. Assisting Nadine was Rose D'Ardis of Home Comforts Interior ReDesign. The "Havens for Healing" program includes a complimentary consultation with a ReDesign specialist, as well as furniture placement, the re-hanging of art and accessorizing with existing possessions.
